CAREER OBJECTIVE

An engineering fresher with a strong passion for software development, eager to apply technical skills and contribute to innovative projects within a growth-driven organization.

TECHNICAL SKILLS

- Programming Languages : Python.
- Web Technologies : HTML, CSS, JavaScript
- Database Technologies : SQL.
- Tools Used : MS Office (word, power point, excel).
- Flexibility and Adaptability

INTERNSHIPS

- Served as a Mapping of Water Supply at HMWSSB.

MINOR PROJECT

- Partial replacement of aggregate with coconut shells.
Description : The project promotes sustainability by reducing the use of natural resources and reusing agricultural waste. Coconut shells, being lightweight and eco-friendly, can lower costs, though they may slightly reduce concrete strength and increase water absorption. Suitable for lightweight construction.

MAJOR PROJECT

- Design and analysis of G+5 building in E-tabs.
Description : The goal is to ensure the building's structural stability, safety and compliance with design codes by analyzing load distribution, stress points and material strength to optimize the design efficiently.
